\* We asked councils to report funerals. Some councils reported dates of death, where possible we have corrected this using the assumption that the funeral took place 2 months after the date of death (NHS data indicated this time frame). \*\*The financial year is 1 April to 31 March. Some councils have used tax year to report figures, we have corrected these where possible but there may be instances where we have not been able to correct this and the 6 April to 5 April tax year is used. Some councils are used calendar year which has been corrected where possible.
