Lung Cancer Nursing Team

Nursing

A guide for patients and carers

At The Clatterbridge Cancer Centre [CCC] we have a team of nurses and support workers who work directly with your medical team to provide advice and support for you throughout your treatment and beyond.

The nursing team comprises of Advanced Nurse Practitioners (ANP), Clinical Nurse Specialists (CNS) and Cancer Support Workers (CSW) and together we cover our locations across Cheshire & Merseyside.

An Advanced Nurse Practitioner is a nurse who has undertaken advanced clinical training and is able to clinically assess, diagnose and prescribe appropriate treatment. They work as part of the medical team in clinic and you may sometimes be seen by an ANP instead of your Consultant when you are due a review.

The Clinical Nurse Specialist is a nurse who has specialist experience in lung cancer care. Their role is to be a keyworker/ point of contact for you and your family throughout your treatment at CCC, they can provide psychological support and symptom/toxicity management advice. They can signpost you to additional areas of support or refer you to other members of the multi-disciplinary team as required.

Cancer Support Workers work closely with and support the nursing and medical team. When you begin your treatment at Clatterbridge you will be invited to complete the Macmillan

electronic Holistic Needs Assessment (eHNA). This will help us better understand and meet your individual needs and support you through your treatment. If at any time your needs change please ask for the link to be reassessed so the team can support you if anything changes.

Contact details

Lung Cancer Nursing Team:

0151 556 5346 (Monday-Friday 9am-5pm)

Please leave a message if no-one is available and we will aim to get back to you within 24 hours.

If you are unwell it's important you call the Clatterbridge Hotline. You can call the Hotline 24/7 on 0800 169 5555 for specialist nursing advice and assessment.

How we produce our information

All of our leaflets are produced by staff at The Clatterbridge Cancer Centre and this information is not sponsored or influenced in any way. Every effort is made to ensure that the information included in this leaflet is accurate and complete and we hope that it will add to any professional advice you have had. All our leaflets are evidence based where appropriate and they are regularly reviewed and updated. If you are concerned about your health in any way, you should consult your healthcare team.

We rely on a number of sources to gather evidence for our information. All of our information is in line with accepted national or international guidelines where possible. Where no guidelines exist, we rely on other reliable sources such as systematic reviews, published clinical trials data or a consensus review of experts. We also use medical textbooks, journals and government publications.

References for this leaflet can be obtained by telephoning 0151 556 5570.

If you need this leaflet in large print, Braille, audio or different language, please call 0151 556 5570.

If you have a comment, concern, compliment or complaint, please call 0151 556 5203.
