

Patient Experience Feedback Survey

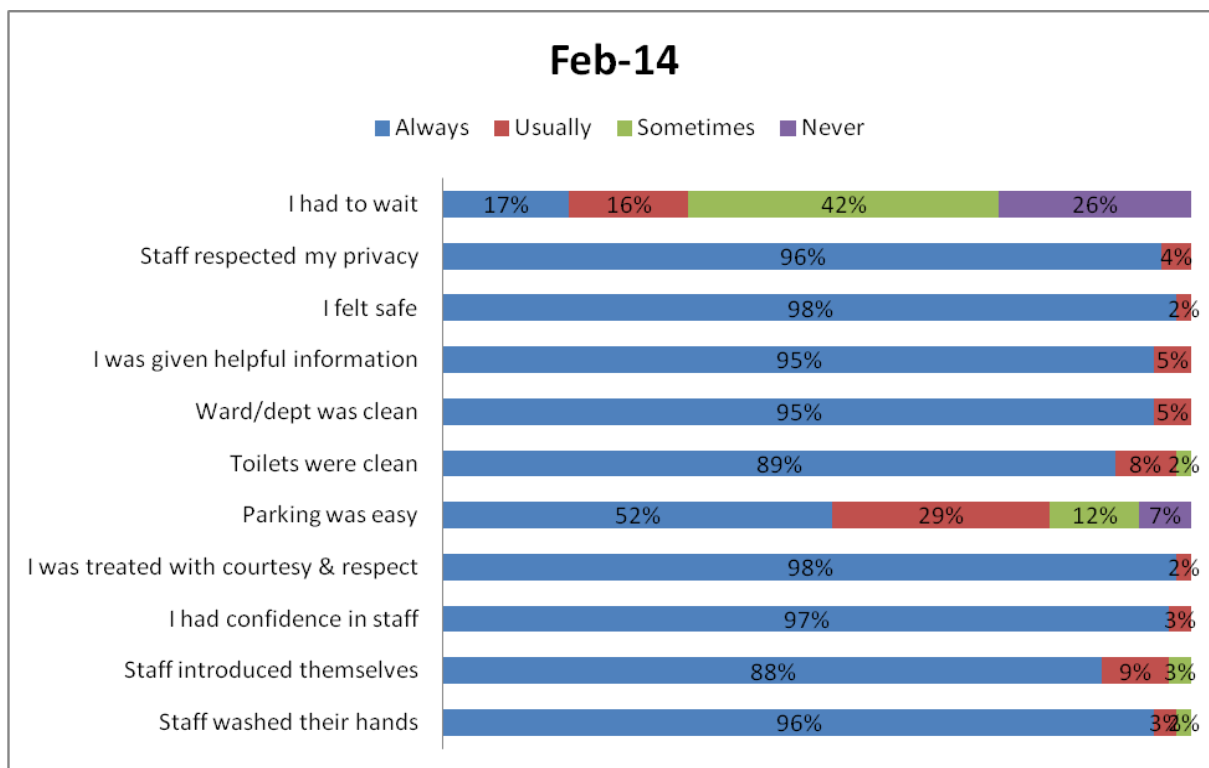

February 2014

Since September 2007, we have asked our patients their opinion of our services across the Trust. We asked questions about issues such as cleanliness, communication and privacy and dignity.

In February , we received 130 forms. Patients are asked to give a rating of either:

- Always
- Usually
- Sometimes
- Never

The graph below shows a selection of questions from the survey with the results.
