Re: Freedom of Information Request
Ref: 332 - 2019

Thank you for your email dated the 20th November 2019, requesting information relating to PCS2 Plasma Collection Systems.

The information that you require is as follows:

Please can you tell me how many of the following device - PCS2 Plasma Collection System from a company called Haemonetics - the trust has used over the last 10 years and how many of these devices are currently in operation.

Please provide a figure for each year over the last 10 years. If possible, please also state how many patients have had this device used on them.

We can confirm that over the last 10 years The Clatterbridge Cancer Centre has not used any PCS2 Plasma Collection System from a company called Haemonetics.

However, as the management of the Royal Liverpool University Hospital's Haemato-oncology service only transferred to The Clatterbridge Cancer Centre in July 2017, we are unable to provide the information requested for this service before this time. I therefore suggest that in order to gain access to this information that you contact the Royal Liverpool University Hospital directly. Information on how you can do this can be found on their website via the following link:

Should you require any further information please do not hesitate to contact me on the email address provided below.

Please remember to quote the reference number above in any future communications.
